SOLE PROPRIETORS,

TAYLOR BROTHERS LONDON.

THE COCOA (OR CACAO) OF MARA I VILLA is the true THEO-ROMA LINN.EU+ coors in indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROITERS having secured ne exclusive apply of this unrivalled Coco. have, by the skilful application of their soutble principle and caborate machinery, produced what is so undealably the perfection of prepared Coca, that it has not only secured the preference of home paths and cocon-drinkers generally, but many who had hitherton a tound any prepared to cost them, they are the present of the could have alter our trial, a lopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"AN UNPRECEDENTED SUCCESS."

May 14. 1808.

"Various importers and manufacturers have attempted to attain a reputation for their prepared toeous, but we doubt whether any thorough success had been achieved until Messis Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.

Adapting their perfect system of preparation to this the "sast of all species" of the Theodroma, they have p, leaded an article which superseduce every other Cocoa ia so market, Fintre solubility, a delicate aroma and a rare concentration of the pursuate elements of marrition, distinguish the Maravilla Cocoa, above all others.

T+ SHITISH COLONIST. Thursday Morning, Oct 29, 1869. The Canadian Tariff. As the conviction that Confederation is the immediate destiny of this Colony gains ground, interest in the Canadian Tariff of Customs is relatively increased. And it is well that it should be so. There are, we have been given to understand, a few persons laboring un der the delusion that the Canadian tariff will not necessarily be ours under Confederation - that we shall have power to frame a tariff suited to our local wants, or to modify the general one somewhat, in so far as its application to this section is concerned. This is altogether a mistake, one which no person at all familiar with the subject, is in danger of making. The Tariff of Customs, above at other matters, is a Federal measure and must of necessity, and will be uniform the Dominion over. There is nothing in the constitution or genius of the Dominion repugnant to the establishment of a free port, wherever auch a thing may be considered deirable; but the theory of a varying Customs tanff or deferential duties is one which is not, cannot, will not be entertained. We wish it could be otherwise; but we must deal with facts as we find them. Allusion was made in a previous article to the fact that, under the Canadian tariff, that class of taxation paid in the form of import duties would be very materially lightened. A more careful examination of that tariff leads us to the belief that it would be reduced fully one third. In other words, instead of being called upon to hand over to the Dominion Government \$350,000 of revenue, we would not in reality give away more than \$243,000. With a treaty of reciprocity between the Do-minion and the United States the revenue derived from this source would be still further diminished. In this way we should probably be relieved of about \$150,000 taxation, a reflection which is peculiarly gratifying in view of the fact that this relief is from a class of taxation which produces Federal revone. Nothwithstanding this solating consideration, we cannot, however, close our eyes to the fact that the tariff contains several items calculated to bear is juriously upon the commercial interests of Victoria. Dry goods, clothing, boots and shoes, &c., all fall under the head of menu nerated articles, and are subject to an advelorem duty of 15 er cent. On the other hand, we find little or no duty imposed up n the natural productions of the country. This is, we confess the most serious feature of the whole matter. The very articles, which, of all others, we desire to have admitted at a mere'y nominal rue of duty, in order to extend foreign trade and build up a large commercial city, would be subject to an increased rate, while the city articles standing in need of protection have it not. This point is not raised as an argument against Confederation; for we think it would be useless to argue against it; nor do we believe there are sufficient arguments against it to j stufy opposition. But this is one of the rea sons in favor of Victoria being created a free port. Under such a tanff there is little hope of our being able to attain commercial power in time to cope with our neighbors. With a free port we would be certain to do so. Tirring to other items of importance in the tariff it is satisfactory to find live stock well protected. Horses, \$15; harned cattle, \$10; swine, \$2; sheep, \$1. The duty on tobacco is considerably less than nader our present tariff, being five per cent ad valorem and 15 cents a pound specific on manufactured tobacco, and on cigars ranging from \$3 to \$6 per thousand, according to value. Perhaps thousand, according to value. Perhaps the most marked reduction will be found in the article of spirits, which, under our tariff, pays \$2 a gallon, and under the Canadian tariff only 80 cents. We confess that we cannot felicitate our Belves over this particular item. With. out pretending to understand the policy which framed the Canadian tar.ff, we cannot but think that it would be in the true interest of the country to take, say, ten per cent from such classes of dry goods as must continue to be imported, and place an equivalent increase upon spirits. Tuese, taken with the free admission of grain, flour and along free list of upwards of three hundred articles, constitute the most important features of a customs tariff, without doubt destined at no distant date to take the place of our own. just one other item in the Canadian tariff to which we will extend our pre-Sent remarks. It is provided that The Governor in Council may, under regulations to be made for that purpose, allow, on the exportation of goods which have been imported into Canada, and on which the duty of customs has been paid, a drawback equal to the duty so paid." Under this provision it is presumable that privileg a similar to those sought by our own Drawbacks Bill of session, but which still awaits the Royal assent, might be obtained for Viotoria. The more we study the Canadian tariff and the more we refluct upon the whole ques ion, both in the

light of its local and national bearings,

to establish a free port on the Pacific

seaboard. Of course it would be folly to suppo e that we can make this a

ing this subject before the authorities at Ottawa, with a view to showing them not only that such a measure appears indispensable to local prosperity, but that it would indirectly benefit the entire Dominion, by at once giving it a commercial status and power on this side of the continent which it could only hope otherwise to attain after a protracted and doubtful race for em-As was very properly intimated in a communication which appeared in these columns on Tuesday, there may be some doubt as to the advisability of those now in the colony committing fu'ure and larger populations, by an act of this kind, to a principle regarding which there may be much difference of opinion. In reply to this objection we would say, let the people now in the colony seek, in negotiating terms of Confederation, to have the power conceded to the Provincial Legislature to create a free port here, should the rem of the people consider such a thing desirable. It would of course be competent for the Provincial Legislature to abolish the free port at any time; and thus would the objection to which we have alluded fall to the ground. Now is the time to have all such matters thoroughly ventilated; and, whatever diversity of opinion may exist, it will be well that all parties should approach these subjects in a spirit of moderation, and wi h an honest desire to secure for this our adopted conntry those terms of union which will

The Pascal Fergeries. From the New York Evening Post.

have the greatest influence for good.

It will be recollected that two years ago a good deal of discussion was excited in France and England concerning the alleged discovery of authentic letters of Pascal, which clearly gave to the great Frenchman the glory of having been the first to unfold the law of gravitation.
M. Philarete Chasles brought these letters to M. Philarete Chastes brought these letters to the notice of the Academy, and when confront-ed by heverrier, who came forward promptly to the defence of Newton's fame with a de-mand for the name of the owner of the letters, declined to give it, but offered the manuscirpts either in the originals or in photographic faceither in the originals or in photographic fac-similes, for scientific examination. Subse-quently a report from a commission of the Florent me Academy, declaring that a letter pat forth upon the same authority as Galileo's was spurious, excited the suspicions of M. Chasles as to the character of his discoveries in general and he caused the house of the owner of these remarkable autographs [which had swelled to the number of twenty thousand] to be rigidly searched, in the hones of obtainto be rigidly searched, in the hopes of obtain-ing proofs of his rascality, but without impor-tant results.

to be rigidly searched, in the hopes of obtaining proofs of his rascatity, but without important results.

M. Chasles has now come forward with full and most extraordinary reveiations in relation to the fraud, which would appear quite unprecedented in literary history. The Rowley manuscripts, the Ireland forgeries, the numberless rascalities of George Psalmanazar, all dwindle into insignificance by the side of this new production of ancient documents. The most singular part of the whole matter is that M. Casles refused to be convinced of the falsity of all the letters. The allusion has been so delightful to him that he is reluctant that it shall be all at once and entirely dispelled; and when we read over the lists of illustrious men to whose inner lives he was introduced in this most interesting and voluminous correspondence, we cannot wonder that he clings foundly to the sweet deception. More than this, he had paid thirty thousand dollars for portions of the correspondence, and he could not hear to believe that he had spent his money for waste paper. Think of the delight an enturisatic antiquary would derive from original letters, documents or poems in the handwriting of Copernicus, Christopher Columbus, Calvin, Luther, Raphael, Michael Angelo, Motaigne, Shukespeare, Scaligeo, Rabelais, Francis I. Cervantes, Ponsard, Tasso, Dante, Petrarch, Brantome and Joan of Arc! But the forgeries did not stop here. There were documents purporting to come from St. Augustine, St. Jerome, Julius Casar and other Roman emperors, and some of the Apostles!

It is inconceivable that a Frencia academician could have been imposed upon by such a preposterous frand as Guis', no matter with what what amazing cleverness it may have been carried on. The author of it, whom M, Chasles calls a 'paleontologic archivist,' whatever that may mean, certainly seems the more

calls a 'palæontologic archivist,'
that may mean, certainly seems calls a 'palaeontologic archivist,' whatever that may mean, certainly seems the more learned and able men of the two, and it is fortunate that his exposure has been made public before he produced the logbook of Noah giving new views of the deluge, or a letter of Cain, exculpating himself in the matter of the murder of Abel.

PORT OF VICTORIA, BRITISH COLUMBIA

Oct 28-Stmr W G Hunt, Finch, Port Townsend. BIRTH.

In this city, on the 27th inst, the wife of Mr Henry O Courtney, of a son.

MARRIED.

Oct. Tth, at St Paul's Church, Esquimalt, by the Ven. W. Sheldon Rocce, M. A. Archdeacon of Vancouver, as-issue by the Kov. Frank B. Gribbell, Incumbent, bother of the bride, Stall Commander D Penner, R. N., to Many Maris, youngest daughter of the late R. Gribbell, Tavistock, Devon, England.

Cariboe.

From files of the Sentine' of the 13th and 16th icst. we compile the following condensed summary :- On Sunday the 10th . second freshet occurred, again filling the claims on the lower part of Williams Creek with water. All the companies in the upper part of the creek were busy, and things looked lively in that direction. The Felix co (Conklin Gulch) washed up 2003, ozsäthe result of four days' work. Several other companies had good yields on this gulch. Os Stout gulch the Taffavie washed up 101 ozs and the Coombs 32 oz for the week. For two following days the latter co washed 41

On Antler Creek new diggings of a very promising character have been struck, prospects of \$1 to the pan having been found in a defined channel, in the old Atkinson claim, and exceedingly good prospects have been obtained by the Neill co on a bench on the right bank of the canyon. The latter, it is thought, will enable the rich lead which was lost in the flat below the town of Ant-ler to be traced. There is the utmost ac-tivity and great expectations on this creek. From the other creeks the news is unimportant the yi-lds being just about the average. BETURN OF EXPLORING PARTY.

RETURN OF EXPLORING PARTY.

Mr Fred Black and party returned to Barkerville on the 15th, it will be recollected that this party started out about the middle of September to make explorations with a view to ascertaining the practicability of constructing a road to Fraser river in the vicinity of Tete Jaune Cuche. This party report the discovery of a pass about 83 miles east of Barkervile, upon which they conferred the name Dominion Pass.' From this pass to the Fraser the country is reporthis pass to the Fraser the country is repor - ed highly favorable for the construction of a road, with an abundant supply of grass along the entire route. The distance from Barkerville to the Fraser, via Antler pass they estimate at one hundred thirty-seven mileestimate at one number of they seek many. General appearances indicate a gold-bearing country on the east side of the divide, good looking elate and quartz rick commencing 15 miles from the pass. Fine gold was obtained wherever tried, by means of a turoup. The supply of provisions fulling short, the party turned back at a point which they considered within filtern or twenty miles of considered within fitteen or twenty miles o Tete Jame Cache. They consider, however, that they fully succeeded in the object of the expedition in ascertaining that a good practicable route for a waggon road exists between Barkersi le and the Fraser river, in the vicio ty of the termination of the Lea-ther Pass. It is a noteworthy circumstance that no snow fell on any part of the route while they were out, nor was there any snow in the Pass.

From the Mainland-Great News from Peace River.

The steamer Enterprise arrived at 6 c'clock last evening from New Westminster, bringing Capt Parsons, C Wright, C Moss, Geo. Bent, Mr Newton and 25 other passengers, and 23 head of beef-cattle from Fort Langley. The gulf was full of whales, spouting and sporting as the Enterprise crossed.

IMPORTANT FROM PEACE RIVER-BIG DIGGINGS. Some months ago a party of miners were cutifited for Peace river by residents of Quesaelmouth and the Government; two Quesnelmouth and, the Government; two other parties also proceeded to the same locality and one of the latter, known as the Burns party, discovered rich deposits of gold in the bank of the Findiay Branch of Peace River. The party numbered six men. They worked a short time, took out from \$5000 to \$6000 in gold dust, and returned to Quesnelmouth eight days ago, where they purchased supplies of clothing and 'grub' to last the winter and have scarted back for the diggings. Their appearance and report have created much exertement in the appearance as it is said the cit gings have been have created much excitement in the apper country, as it is said the citigings have been traced many miles and that the pay dirt is six and eight feet thick. Some think greater diggings than those of William Creek have been discovered. Be this as it may, Findlay Branch may be reached from the coast by way of Skeena River in a very few days.

WANTED .- "A childless, relationless, carnetbagless" person to be President of the United States of America. Such are the qualifications now demanded by an influential section of the American press for future Presidents. A San Francisco contemporary says: "President Lincoln's relatives gave him more trouble than did the rebellion, in divers ways; and, rightfully or not, Gen. Grant, as President, has had to stand more charges on account of his relatives than he did from the Confederates during his whole military services against them. Nepotism and carpetbagism have gone far towards disatisfying the people with the form of Government we live under." United States of America. Such are the

THE WIRING AND SEALING of packages of goods bound for American ports via Victoria has we learn been abandoned at San Francisco. It is only at Portland and Astoria, where stupid prejudice appears to govern the action of the customs' officers, that the ridiculous system is continued. The system was intended to sport a Panama: but certain parrowsystem is continued. The system was intended to apply to Panama; but certain narrow-minded American officials thought there was a good opportunity presented to annoy British Columbia and so they introduced it upon this coast.

LARGE OPERATIONS.—A contemporary is responsible for the following calculations:—

"Five hundred millions in gold was the sum of the Wall street sales no that terrible Friday. This amount of gold, upon a rough estimate, allowing sixteen dollars to an onnee, and sixteen counces to the pound, and two thousand pounds to the ton, and one ton to each cart, would require a thousand carts to move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into move it; and allowing twenty feet to each his soul. I wouldn't for a moment into the most genial manner, yet within six inches of his mouth, you would each his arrival. Lady Palmerston's good manners were the more reflection of the function that this is distincted that this is didlines of heart, and it is this which made them so fascinating to all around her. Sho offered a rare example to all 'great ladies' by showing that it was possible to occupy a bigh position in the most genial manner, yet within six inches of the five to make the most genial manners were the more reflection of the function.

FRESH WATER .- Mr. Wm. Fawcette has nserted an advertisament in this issue in which he offers to convey a supply of fresh water to the city from a spring which he has discovered not far from town. In a letter addressed to the Secretary of the Spring Ridge Water Company, Mr. Fawcette says the water can be led into town by means of wooden pipes for \$15,000. The present yield of the spring is 20 000 gallons, which is we helicipe about 40 000 gallons less than is, we believe, about 40,000 gailons less than the consumption. However this may be, the suggestion of Mr. Fawcette should not be lost upon the Company, or, at any rate, upon the Corporation.

TURNED CHRISTIAN .- Frances Mayer, the Nancimo girl, who lately disappeared from her home in S n Francisco in a mysterious manner, has published a letter in a San Francisco paper announcing that she has recounced the Jewish and espoused the Christian faith. She declars her intention of entering a convent; but the place of her hiding has not as yet been discovered.

THE ALABAMA CLAIMS .- The latest inteligence, through American sources, is to the effect that Minister Motley wants fresh instructions. He thinks the present temper of John Bull is such as to encourage the hope of a mutually satisfactory treaty being nearly that the structure of the gotiated just now, and he is desirous of trying his hand at it.

PARALYZED .- Policeman Armstrong, who lately entered the force, was struck with paralysis, a few nights ago, while standing guard. He lost the power of his limbs and fell to the ground, but was enabled to call for assistance. Yesterday he was tent to the Hospital for treatment.

Dogs Impounded .- The poundkeeper pound ed down upon a number of dogs-good, bad and indifferent-yesterday and impounded them One little fellow was seduced into the poundkeeper's arms on promise of a prece of meat; and it cot the owner \$2 to release his pet. The plan is to serze all dogs not wearing tags to indicate that the owners have paid the municipal tax.

THE ST. ANN'S ORPHANS' BENEFIT SOIRER last evening proved very successful, the attendance being large and enjoyment great. Governor Musgrave was not present; but sent, we believe, a handsome donation. The proceeds of the sale of tackets will be handed over in full to the Sisters—the Committee defrayes all expenses from their private

Is IT So ?- We are informed that while lady residing on Cook street was engaged in milking a cow in front of bor own gate, the call was burried off to the pound, and that great difficulty was experienced in saving the cow from seizure. This is rather stretching the law, is it not?

MARRIAGE. - St. Paul's Church, Erquis malt, was thronged yesterday with ladies and gentlemen, gathered to witness the pupila's of Staff Commander Pender, R. N., and Miss Amy Maria Gribbell. The ceremony was performed by Ven Archdescon Recce, as-sisted by Rev. Frank B. Gribbell, brother

Nor Cowing Here. - We observe by late files of the Oregonian that Gen. Tom Thumb and party sailed from Portland for San Francisco in the Orlflamme, on the 19th mat. It would thus appear that our people are not to be honored by a visit from that distinguished individual.

MR. Rus-BLL, who was formerly an Episcopalian clergyman, is giving some capital readings of "Evenings with Dickens." Should the gentleman require an assistant, we can cordially recommend Mr. Geoffrey Norreys as in every way competent.

ERRATUM .- In the leading article yesterday, in the ninth line, we were made to say that the Colonists expect " partial results," whereas we intended to say practical results -rather an important difference.

Sooke .- The ship Old Dominion, lumber laden for Sydney, Australia, is ready for sea, and the bark Medora is loading for Valparaiso.

RETURN MATCH .- i'he return match between the Charybdis and Victoria Tens will be shot on Thursday next at the range at

Esquimalt. THE S. F. Bulletin says the " shrinkage in the value of mining stocks in ninety days

was \$12,000,000. THE ACTIVE will sail from San Francisco for Victoria on Saturday. This may be re-

lied on. Ir is reported the Pol ce force will shortly be placed under the Mayor and Council.

another reason why tax payers should arouse. THE Steamer Gussie Felfair will be due at the mouth of the harbor to-day.

THE New York Sun says: " Lord Hubert Ainsley is now attracting so much attention in the fashionable circles of this country by in the fashionable circles of this country by his magnificent and costly entertainments, that we are desirous to give a short sketch of his family and title. But we regret to say that we have been unable to procure the requisite materials, though we have sought for tueff in the records of the British aristoracy. His name cannot be found in Dod's British Peeruge,' a work which purports to contain the family names and titles of all the Peeruge of these British and of every one to contain the family names and titles of all the Peers of Great Britain, and of every one who is entitled to the prefix of Lord, Lady or Honorable. In the latest educion of this book, which is the highest authority on such matters, we cannot find the name of Lord Hubert Ainsley. How it came to be omitted is unaccoustable to us; perhaps it was by a mistake of the printer. It is not to be doubted that he is really a Lord, because he is always spoken of as such by those who ought to know."

ought to know."

The Charity Ball,

EDITOR BRITISH COLONIST :- In your issue of Saturday last there appeared a statement of the proceeds of the ball given in aid of Mrs Smith. The figures given surely cannot be correct, unless they simply represent tickets sold, and then the amount is small judging by the number of people who were at the dance; also the number of tickets sold to parties who did not come. How about the incidental expenses? I understood that there would not be any expenses except printing. The fact is it would be well if the committee would publish a detailed report, v.z., tickets sold, cash taken at the gate on the evening of the ball, privilegs money from Piper and Mady, amount from Fire Department and special donations. By inserting the above you will oblige

BALL A SUCCESS.

The death of Lady Paimerston has called outexpressions of genuine sorrow in England, and many reminiscences in the pleasland, and many reminiscences in the pleasant Saturday receptions at Cambridge House during the lifetime of the Premer. The most insignificent guest was sure to be welcomed by pleasant smiles from Lady Palmerston and by a warm greeting from he husband, who, although he was often ignorant of the rame of the person whose hand he so cordially shook, always managed to convey the impression that he had been most anxiously expecting and was quite delighted at his arrival. Lady Palmerston's good manners were the more reflection of her true kindliness of heart, and it is this which made

DEATH OF HENRY PHILLPOTS. - The son of a hotel keeper of Gloucester, England, died recently, aged ninety years. His name was Henry Phillpots. He was oducated at Corpus Christi Collage, Oxford. In 1840 he married the niece of Lady Eldon and became one of the chaplains to the Bishop of Durham. Three years afterwards he was made Probendary of Durham Cathedral. In 1825, having taken his degree as D. D. some years before, he had a famous controversy with Dr Butler. He was appointed to the dean ery of Chester in 1849, and in the following year he was made, at the instance of the Duke of Wellington, Bishop of

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color. A dressing which

is at once agreeable, healthy, and effectual for preserving the Faded or gray hair. hair is soon restored to its original color "ith the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. ts occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Medicino.

Perhaps no one incidicine is so universally required by everybody as a cathartle, nor was ever any before so universally required by everybody as a cathartle, nor was ever any before so universally required by everybody as a cathartle, nor was ever any before so universally required to the control of the cont

for Hyanactism, Gout, Gravel, Palpi-for Whanactism, Gout, Gravel, Palpi-tation of the Heart, Pain in the Nide, Hack and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints

the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scronhous discrete the season of Scronhous discrete purified and curred by it. Scronhous affections and disorders, which were agravated by the scronhous of the country, that the public scarcely need to be routined point of the country, that the public scarcely need to be routined point of the country, that the public scarcely need to be routined point of the country, that the public scarcely need to be routined point on or of the most destructive the anies of our race. Often, this unseen and unfelt them to fit he organism undermines the constitution, and invites the attack of enfeedbing or fatal disenses, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body. I then, on some favorable occasion, rapidly developing one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the latter, tubercles and present and several tubercles of a bettle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the safety with the suddenly deposited present and sudmarile, when arising, and the various successaries and contin

Dr. J. J. ALERI & Co., Lowell, Mass. Practical and Analytical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE.

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the canidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the large and throat, have inade it known as a reduced that the same time the most effection throat with the large and throat, have inade it known as a reduced to the large and throat, have inade it known as a reduced to the large and throat, have indeed to midder forms of disease and to young endithed to midder forms of disease and to young endithed to midder forms of disease and to young endithed a begiven for inclipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Creap, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this anticlote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the diseases seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery our the disorders of the Lungs and Throat, that the Cherry Pectoral is subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, So., and indeed all the affections which arise from malarious, mursh, or miasmatic poisons.

poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zine, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are diterally beyond account, and we believe without a parallel in the history of Agne medicine. The contained personal contained by the acknowledgments we receive of the advantable by the acknowledgments we receive of the advantage of the cases, and where other remedies had wholly finited cases, and where other remedies had wholly finited. Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGVES CVER daily.

For Liver Complaints, arising from torpidity of the Liver into healthy activity.

For Bilous Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed. Prepared by Dn. J. C. ATRIX & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
